C. Wells Painting did our entire interior and majority of our exterior work and we were absolutely thrilled with the work from start to finish. C. Wells advised on paint colors, suggested the right matches, shades and offered superb advice on some of the more challenging aspects of what we wanted to have done.

Never written a testimonial before, but when I heard about their mural of the Green Monster on the news, it reminded me of how happy we were earlier this year with their service and professionalism.

I googled C. Wells Painting and found this website, so thought I'd share our experiences, because we really appreciate good work. C. Wells was fast, accurate and did the little things really well...details such as clean up (which my wife was VERY concerned about) was impeccable. They even showed us how best to touch up any spots (we have 2 boys under 10) periodically, to keep high traffic areas and baseboards fresh, worked around our dog and even our kids.

We literally were blown away...Highly recommend them!
